ATTENTION: ALL COMMERCIAL REAL ESTATE TRANSACTIONS!

Please consider us when your client requests an inspection of a commercial or industrial property. We provide prompt and detailed reports. Although most inspections do not require other licensed tradesmen we commonly consult with expert tradesmen when necessary to fulfill a client's expectations.

Our inspector, **Tom Edwards**, has performed **over 14,000 building inspections** (including 40+ commercial buildings) over the last **18 years of service to this area**. Tom is a former code inspector with the City of High Point and a licensed General Building Contractor since 1984.

Listed below are a few of the various buildings we have inspected for clients when they were being considered for purchase or, in the case of a church, for maintenance needs. We have the experience to meet your client's needs. *Please call our office for a fee quote. Fees vary widely depending on the client's need for system status and/or maintenance information.*
